

CHICCO JUVENILE 2017/18
OUTDOOR, INDOOR, CAR

We know that the first 36 months of a child's life is a special time, full of moments that can never be replicated.

This is why we put our passion and expertise to use day after day to support parents and make sure that every single one of those moments can be enjoyed in complete serenity.

WE IMMERSE OURSELVES IN A CHILD'S WORLD EVERY SINGLE DAY.
WE PUT PASSION AND DEDICATION INTO EVERYTHING WE DO IN ORDER TO GIVE MOTHERS EXTRA
LITTLE MOMENTS OF SERENITY IN THEIR HECTIC EVERYDAY LIVES.
WE COMMUNICATE THIS APPROACH THROUGH OUR VALUES, OUR PERSONALITY
AND OUR OWN UNIQUE WAY OF EXPRESSING IT, WHICH WE CALL **"CHICCO'S WAY"**.

WORKING IN HARMONY WITH PARENTS.

We listen to the needs and emotions of parents and children. We understand them, we make them our own, and we have made it our mission to provide the best solutions for them.

We know how and when to be there for them, working together in perfect harmony but without ever taking their place.

This is what we call: EMOTIONAL INTELLIGENCE.

THE RIGHT SOLUTION GUARANTEED.

We take what we do extremely seriously.

We take care to ensure that our products are safe, reliable and meet high quality standards.

We have over 50 years' experience in the world of baby care and we continue to build on this expertise through our work at the Chicco Baby Research Center.

This is what we call: PROFESSIONALISM AND EXPERTISE.

CONSTANTLY EVOLVING.

We are backed by a strong sense of tradition, yet our team is constantly looking towards the future to research the most technologically advanced solutions to respond to the needs of parents and children, both now and in the future.

This is what we call: INNOVATION AND CONTEMPORANEITY.

ALWAYS WITH A SMILE.

Taking care of a child is a serious business.

We know this but think that it is equally important to relax a little every now and then.

Because the experience of being a parent is by very definition a happy and positive one too.

Our products are simple and straightforward

– it is instantly recognisable what they are.

They are the ultimate in user-friendliness.

The language we use is also designed to be plain-speaking yet raise a smile at the same time.

This is what we call: LIGHT-HEARTEDNESS AND TRANSPARENCY.

Chicco's vast experience in the infant world has now been consolidated by an Observatory facility, [dedicated to increasing our knowledge of children of from 0 to 3 years of age](#) and their psycho-physical, emotional and social needs. The first few years are a vital period for the growth of all children, a period which is full of significant changes and physical and psychological needs, for them and their families. Only by observing all these aspects very closely, and in particular the spontaneous behaviour of children, we are able to fully comprehend their actual needs. This is why the Osservatorio [collaborates with experts in the medical-scientific world](#), which is vital in order to keep up to date with the knowledge and progress made in the pediatric field, and to assess the scientific value of the proposed products; it communicates with the education facilities and constantly [gathers suggestions from mothers and fathers](#), those who have hands-on experience of what their child need. The commitment of the Osservatorio is to gain as much knowledge as possible on the world of children, and use it to devise and develop specific solutions for each growth phase.

KNOW-HOW

Constant observation of children and the world they live in.

SCIENTIFICITY

Collaboration with the medical world.

EXPERIENCE

Ongoing dialogue with parents.

RESPONSIBILITY

Because the happiness of children is a serious issue.

AT YOUR SIDE, AT EVERY MOMENT.

.....

Every birth is a celebration, a unique and exciting moment in the life of any family. Becoming a parent is a wonderful journey, a path full of special moments: from those first strolls, to bedtime, bath time and trips in the car. This inspired us to create this guide with selected products that are safe and beautiful as well as practical, to accompany all of your unique, once-in-a-lifetime moments with love and experience. **Because for Chicco, as for every parent, every moment matters.**

TRIO STYLEGO UP - STROLLER

The StyleGo Up stroller is the perfect mix of practicality and comfort, for the needs of parents and babies.

The seat, super padded and cosy, is reversible, with a simple movement. The stroller has a wide hood, with mesh opening and extensible segment for maximum protection. The frame can be folded with one hand and single movement, using the control behind the seat.

1 COMPACT

The frame, only 50 cm wide, is extremely compact and allows you to easily stroll even in the narrower spaces

2 SUPER EASY TO HANDLE

Thanks to the ball bearing wheels, StyleGo Up stroller is 70% more agile than other products

3 INNOVATIVE WHEEL SYSTEM

Highly practical, thanks to the self-positioning frontal wheels and the one-hand folding. The stroller is self-standing when closed, both in the street facing or parent facing configuration

3

TRIO STYLEGO UP - CARRYCOT

0+

The new StyleGo Up LightNap carrycot, approved for car transportation, has been designed to ensure maximum ease of use for the parent and maximum comfort for the baby.

The carrycot is light (only 4,4kg) and has an elegant and linear design; it is easy to use and to carry thanks to the handle's ergonomic hand grip integrated in the hood.

1 PREMIUM DETAILS

The exterior structure, entirely covered with top-quality fabric, encloses a removable and soft mattress

2 AIR VENTILATION

The practical mesh window and the perforated base of the carrycot ensure maximum ventilation even in warmer months

3 CAR USE

Approved for car transportation, it is equipped with a 3-point removable belts kit

STROLL'IN'2

CODE 079564

EStroll'in'2 is the ideal stroller for carrying two babies of different ages.

One stroller, with multiple configurations of usage. With two seats and a ride-on foot platform, Stroll'in'2 is versatile and easy to use in all situations.

Quick folding with just one hand, it is very compact when closed!

1 MAXIMUM VERSATILITY

The front seat is homologated for use with babies from 6m+ and it is equipped with padded shoulder and crotch straps. At the rear of the stroller, there is a second seat, or alternatively, a footboard for little ones who want to stand. Both rear configurations are homologated from 3y+ up to a maximum of 25kg.

2 CAR SEAT

The Chicco KeyFit car seat can be attached to the front seat, for use from 0m+.

1

2

1 CLOSURE

The Stroll'in'2 is equipped with a single action control closure mechanism. When closed, it is extremely compact, and it is self standing. When the stroller is closed, the closure handle can be used to carry it.

2 SUN CANOPY

Wide sun canopy with extendible rear section to provide even greater protection for older children sitting in the rear seat.

3 BASKET

Super-spacious storage basket, with easy access from the front and back of the stroller.

Ergonomic multi-position baby carrier. It's comfortable and it follows the growth of your baby. Recommended for newborns and babies till 15 kg. Thanks to the slit on the front of the baby carrier, it adjusts naturally to the baby's physiological growth.

1 ERGONOMIC AND SAFE FOR BACK AND HIPS

The spacious seat guarantees the hip healthy M-position for your baby's legs. The structure of the baby carrier ensures the healthy C-position for your baby's back.

2 COMFY FOR PARENTS

The baby carrier has padded waist and shoulder straps to ensure that the baby's weight is correctly distributed across parent's back.

3 FOLDAWAY HOOD

It comes with a practical multi-function reducer with foldaway hood*

SLEEPING TIME PRACTICAL ADVICES.

The sleeping moment is critical in the first months of baby's life, in which he has to regulate the wake-sleep rhythm. Experts recommend to let the baby sleep in his own space and never in the parents' bed because it could be dangerous. Moreover, during the first few months of baby's life, the crib is better than the playard because, a more contained space makes the baby feel safer and protected. It is recommended to place the crib in the parents' room as close as possible to their bed. The baby close to mom feels protected and safe; at the same time mom sleeps more peacefully and she is more comfortable in breastfeeding or in managing the frequent awakenings of the baby.

Side-sleeping's benefits:

It helps the baby to regulate the sleep-wake rhythm

It makes breastfeeding easier for mom

It helps parents in being peaceful and the baby in feeling safe

It strengthens the bonding between baby and parents and helps the baby to grow self- confident and more friendly

Sleeping close to parents (but not in the same bed) reduces the risk of SIDS.

Chicco Next2me and Chicco Next2me Dream are characterised by:

1- Side panel to allow side- sleeping

2- Attachment system to parents bed, simple and safe, adapting to different bed types, included those with drawer

3- Adjustable height

4- 2 modes: bedside crib or standard crib

5- Base and mattress tiltable

SAFETY BED BARRIERS

CODE 068193 / 66381

Chicco safety bed barriers guarantee protection and safety when your child begins sleeping in a regular bed.

The metal and fabric structure keeps your little ones in the bed and protect them from possible falls when sleeping.

Easily attachable to the bed, under the mattress, and usable on the most common types of beds.

Can be used from 18 months till 5 years.

Available in two lengths: 95 cm and 135 cm

1

STORAGE

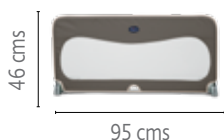

Small, secret pocket for pacifier

2

PRACTICAL

Can be reclined, to assist you when making up the bed or when easing down little ones to bed

Before you buy a car seat, make sure the car's instruction manual says you can install child restraint systems for the age of your child.

Car seats may only be fitted on seats with 3-point safety belt.

ISOFIX TOP TETHER

GO-ONE Isofix and Oasys 1 EVO Isofix are universal car seats, that are compatible with most vehicles, and have special connectors. We advise you always check that the manufacturer states in the instruction manual that "universal" child restraint systems can be fitted in the car, for the age of your child.

Before you buy and use this type of car seat, check the user manual for compatibility.

Seat Up 012, in Group 2, can be installed using both 3-point belts and top tether. Check if your car is in the car compatibility list, included with the product.

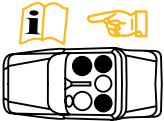

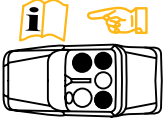

YOUNiverse Fix in Group 2/3 can be installed using Isofix connectors and top tether. The child is restrained using 3 point car belts. Check if your car is in the car compatibility list, included with the product.

Oasys 23 Fix Plus, when fitted using rigid FixPlus connectors, is considered as SEMI-UNIVERSAL. Check if your car is in the car compatibility list, included with the product.

CHICCO CAR SEATS TABLE I-SIZE (ECE R129)

MODEL	REARWARD FACING	FORWARD FACING	Approved positions in the car	Page
Oasys i-Size	 40-78 cms (no air bag)			217
AroundU	 87-105 cms (no air bag)	 76-105 cms		226

Oasys i-Size is compatible with all i-Size homologated vehicles and with most of the cars equipped with ISOFIX System. Check if your car is in the car compatibility list, included with the product.

HOW DO I CHOOSE THE RIGHT CAR SEAT?

Using a car seat from your very first journey in the car is the only way to really protect your little one.

Chicco conceives, designs and develops a wide range of products to answer to the specific needs of children of all ages. A few key pointers are needed to evaluate and choose the most appropriate car seat for your little one.

Newborns

from birth up to about one year

0-13 kgs

40-75 cms

Toddler

from 9 months to about 4 years

9-18 kgs

70-105 cms

Children

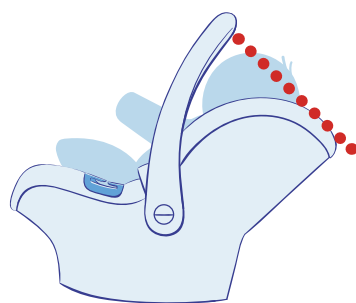

from 3 to around 12 years

15-36 kgs

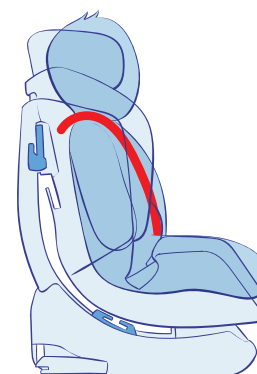

100-150 cms

WHEN IS IT NEEDED TO PASS TO THE NEXT CAR SEAT?

Often, we replace our car seat with the next one too soon. Each seat is designed to ensure utmost safety and comfort to little ones, according to their weight, height and age. You need to change the car seat of your child when:

The top of the child's head appears above the upper edge of the backrest.

Shoulders are more than 2 cm above the integrated seat belt attachment, with the headrest in the highest position.

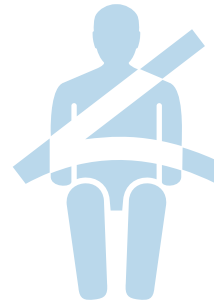

DIFFERENT INSTALLATION'S POSSIBILITIES

Car seats can be fitted in one of two ways. Both are safe.
The most important thing is that the **car seat is installed correctly**.

ISOFIX

Car seats can be installed without using car seat belts. The ISOFIX system is the easiest, quickest and safest way to install a car seat

VEHICLE BELT

It requires the usage of vehicle belts, following belt-guides

ISOFIX: HOW DOES IT WORK?

ISOFIX is a **standardised international system** which enables car seats to be installed correctly, **without using the belts of the car**.

SAFER

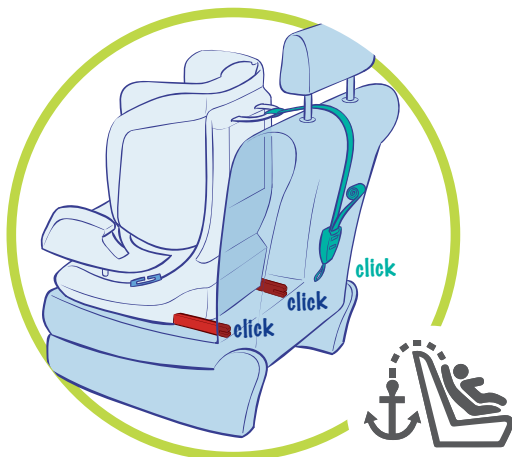

Once fixed in place, the car seat effectively becomes an integral part of the car body, reducing forward rotation movements in case of frontal impact.

EASIER

You can check whether you have fitted the car seat correctly, since, when the seat has been correctly installed, the specific indicators become green

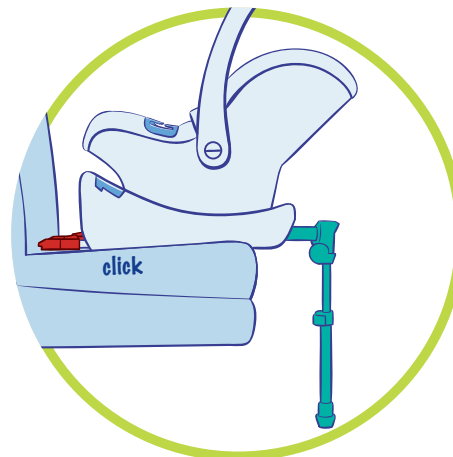

FASTER

The car seat is installed in 3 simple steps, eliminating those difficulties that could occur with a car seat belt, and reducing the risk of error.

TOP TETHER

This is composed by two ISOFIX connectors, located between the backrest and the seat of the car, and the third anchor point -TOP TETHER (stabiliser belt).

SUPPORT LEG

This is composed by two ISOFIX connectors, which have to be attached to the hooks, located between the backrest and the seat of the car, and the third anchor point - the SUPPORT LEG.

WHAT IS THE I-SIZE REGULATION?

The first of the three phases of the i-Size European safety standard (ECE R129) entered into force in July 2013. It involves car seats for babies from birth up to 105 cm in height, and can be summarised into the following five key points:

- it classifies car seats in accordance with the height of the baby and not the weight, as in the ECE R44/04 regulation;
- it promotes the usage of the ISOFIX system, with the aim of reducing the risk of incorrect installation;
- it requires the side impact testing, using “Q” series dummies, which are equipped with more sensors;
- it makes mandatory the rearward facing configuration till at least 15 months of the baby;
- it guarantees perfect compatibility with those cars with i-Size homologation and generally speaking, i-Size car seats are compatible with almost all cars equipped with ISOFIX connectors.

In summer 2017, the second phase of the i-Size (R129-02) regulation will enter into force, focusing on children with a height of 100 cm and above.

Specifically:

- it will not make the Isofix system compulsory. Car seats for older children may or may not be equipped with this type of installation;
- It will no longer be possible to homologate car seats without backrests, so all car seats approved according to the R129-02 standard will must have this feature.

AROUND U

CODE 079579

NEW

Around U is the new car seat, homologated according to i-Size regulation (40 – 105 cm – max 18,5 kg), that follows the growth of the baby from birth till 4 years. It offers top safety and ease of use.

1 TOP SAFETY

The ISOFIX system with Top Tether enables a very easy and safe car seat installation. The installation is universal, so that it is compatible with all the cars.

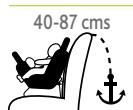

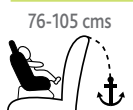

2 INTEGRATED MIRROR

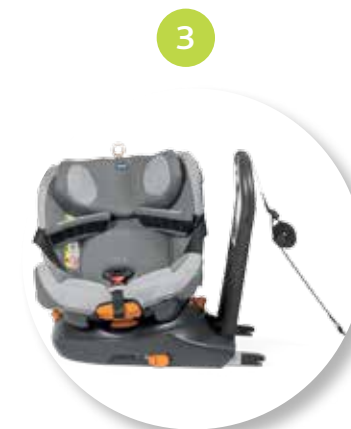

The adjustable integrated mirror allows baby's eye contact, reassuring parents when the car seat is installed rearward facing

3 90° PARENTS FACING POSITION

It is easy to put the baby inside the car seat, thanks to the 90° position and special feature hooks that keep the harness system correctly opened

CHILD'S SIZE	AUTHORISED POSITION
40-87 cms  (no air-bag)	
76-105 cms 	

REARWARD FACING

4 REARWARD FACING

i-Size safety: rearward-facing travel up to 15 months for enhanced protection of head and neck. The mini-reducer with special foam protects newborn, especially in case of side impact.

5 FORWARD FACING

After 15 months, it is possible to turn the car seat forward facing to follow the growth of the child till 4 years. The headrest and harness can be adjusted simultaneously. The car seat can be reclined into 4 different positions to ensure best comfort.

SEAT UP 012

0+

CODE 079828

Seat Up 012 is homologated as Gr. 0+/1/2 (0 – 25 kgs). It accompanies little ones from birth till 6 years.

It offers the perfect combination of safety, comfort for the baby and practicality for parents.

1 SIMPLE INSTALLATION

The car seats is easy to fit in each group, and especially in Group 1 it's particularly intuitive, thanks to the Isofix system. 3 clicks is all you need to be on your way in total safety

2 COMFORT

A comfortable and embracing reducer cushion that has to be used from birth till 9 kgs

3 GROWTH

The headrest and seat belts can be adjusted simultaneously as little ones grow

1

● Authorised position with 3-point harness

0+

SEAT UP 012

4

Group 0+ (0-13 kg)

The car seat has to be installed rearward facing, using car seat belts. It's essential to ensure that air bags are deactivated every time you travel.

5

Group 1 (9-18 kg)

The Isofix system enables quick and easy installation, attaching the Isofix connectors and the Top Tether. For those cars not equipped with Isofix system, the car seat has to be installed using seat belts.

Chicco nursery keeps working on the continuous evolution of children's safety regulations, which in europe regulate the design and production of nursery products.

The constant technological development may therefore oblige us to modify our products during the period of validity of the catalogue.

The details and indications provided are therefore non-binding.

Furthermore, due to printing process, colours and fabric might result different compared to the real items.

Availability of the products in this catalogue is subject, at all times, to our manufacturing capacity.

Regular supply of products is therefore dependant on manufacturing capacities.
